

4 Color Process Printed Bags

File Extensions: .ai, .eps, .pdf (saved with editing capabilities)

- All type that has been set must be converted to outlines (curves). If future changes to the text will be necessary, the original font file must be supplied with the art file for use on the supplier's specified computer platform (Mac or PC).
- Artwork files should be at 100% size
- Confirm all Pantone® colors for bindings, handles and seams.
- Confirm prominent Pantone® colors in artwork- especially in trademarks and logos.
- Confirm any other logos on the bag that may need to be added- ie. UPC barcode, Ecologo, etc.
- A color-proof is required to match with pre-production samples. Please send via courier to your sales representative once artwork has been submitted.
- Artwork can be sent via CD but ftp is preferred to speed up the process. Contact your sales representative for ftp upload instructions.
- If the vector file contains any linked (placed) raster images, these images must be 300dpi for resolution when rendered at 100% actual imprint size and must be submitted with the original vector file.

2-4 Color Screen-Printed Bags

File Extensions: .ai, .eps, or pdf (saved with editing capabilities)

- All type that has been set must be converted to outlines (curves). If future changes to the text will be necessary, the original font file must be supplied with the art file for use on the supplier's specified computer platform (Mac or PC).
- Confirm Pantone® colors in artwork
- Confirm print position and size of the artwork (maximum 10-11.5" width/height depending on the bag)

1 Color Screen-Printed Bags
